

## VOYAGER GOLDEN RECORD

The Voyager Golden
Record are records that
contain sounds and images
chosen to show the life and
culture on Earth. These
records which were sent in
the Voyager spacecraft in
1977, are for alien life forms
to see.

The Voyager Golden Records are two phonograph records that were included aboard both Voyager spacecraft launched in 1977. The records contain sounds and images selected to portray the diversity of life and culture on Earth for extraterrestrials in a sort of time capsule intended to communicate to extraterrestrials a story of Our World.

It's like a present from a small, distant world, a token of earth sounds, science, images, music, thoughts and feelings. Humans are attempting to survive time so they may live forever.
